# 40% more dust pick-up for a better clean

## With PowerCyclone technology

The new Philips PowerPro picks up more dust in one go, so your floor gets cleaner with fewer strokes. You can therefore spend more time doing the things you really enjoy.

**More dust pick-up for faster cleaning**
- PowerCyclone technology separates dust and air in one go

**Easy to clean**
- Advanced dust container design for easy emptying
- Washable foam filter for life-long performance

**Extra long reach for convenient cleaning**
- More cleaning with less effort

PHILIPS
sense and simplicity

Bagless vacuum cleaner with PowerCyclone technology

FC8769/01

# Specifications

### Design
- Color: Titanium and green

### Performance
- Noise level (Lc IEC): 80 dB
- Airflow (max): 38 l/s
- Input power (max): 1600 W

### Filtration
- Exhaust filter: Super Clean Air HEPA 12 filter
- Motor filter: Washable double foam filter
- Dust capacity: 2 l
- HEPA AirSeal

### Dust management
- Filtration system: PowerCyclone

### Usability
- Tube type: Metal 2-piece telescopic tube
- Carrying handle: Top and front
- Tube coupling: Easy release
- Wheel type: Rubber
- Power control: Curved bend with holes
- Action radius: 10 m
- Cord length: 7 m

### Nozzles and accessories
- Standard nozzle: Multi nozzle
- Accessories: Crevice tool, Small nozzle
- Accessory storage: On tubeclip

### Sustainability
- Packaging: > 90% recycled materials
- User manual: 100% recycled paper

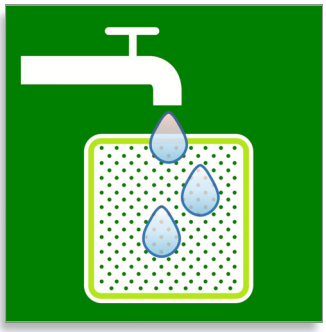
### Weight and dimensions
- Weight of product: 5.5 kg
- Dimensions of product (LxWxH): 550 x 292 x 292 mm

# Highlights

### Easy to empty dust container

The dust container is perfectly designed to dispose dust without creating a dust cloud. Thanks to its unique shape and smooth surface, dust is collected at one side of the container and evenly glides into the dust bin.

### Life-long washable foam filter



The foam filter can be easily washed under the tap for life-long performance.

### PowerCyclone technology

The PowerCyclone technology delivers best cleaning results in one go through 3 highly efficient steps: 1) Air enters fast into the PowerCyclone thanks to the straight and smooth air inlet. 2) The curved airpass quickly accelerates the air upwards in the cyclonic chamber. 3) At the top of the cyclone, the exit blades effectively cut out the dust from the air.

### 10 m action radius
10 m action radius for cleaning with less effort.
